

## 2019 Results and Highlights of Higher Education Sprout Project

Improve the publicity of higher education

Sub-project 3-1-2 for indigenous student training.

### Results and Highlights:

This project includes training courses for indigenous peoples such as "indigenous languages", "indigenous dance", and "indigenous musical instrument". Through each application once a week. There are a total of 12 training courses per semester, which are of great help to students' daily life and employment development. After the language training, in addition to holding the indigenous language reading competition results exhibition. The students participated in the national language certification test of the Indigenous Peoples Committee. A total of 3 students passed the Intermediate Certificate of Indigenous Language Proficiency Certification. After the dance and musical instrument training courses, a joint exhibition of musical instruments and dance achievements was organized. The performances performed by students both inside and outside the school are welcomed and well received. In addition to enhancing students' self-confidence, it also enhances students' professional performance ability and strengthens their sense of self-identity.
